Report on a guest lecture

Title: Thallasemia.

Speaker: Prof. Prakash R. Pangham (CEO-PATUT)

Venue: Institute of pharmacy, Seminar Hall

Date: 10th August 2018

Objective:

The objective of the guest lecture was to make the students aware about the anemia and thalassemia, about their cause treatment and precaution.

Summary:

Guest speaker prof. Prakash R. Pangham was felicitated by the principal Dr. Sanjay Kshirsagar with a green welcome.

Prof Pangham initially gave detailed information about the PATUT how it works and what is their objective. Then he explained about anemia and thalassemia, etiology behind it.

Speaker suggested the audience to get deverminised every 6 month to improve the body health as worms are one of the major reason for anemia. Thalassemia is hereditary disorder, sir suggested the thalessemic major or minor patient to avoid marriage

Over all the session was very informative for students. This seminar was organised under the guidance of Resp. Dr. Sanjay Kshirsagar, principal IOP MET Bhujbal Knowledge city.
